TAX BENEFIT

MEDICAL AID APPEAL

Dear Donor,

My son, Baby of Pawar Nitin Ashok, delivered on 23rd May 2026, is under treatment with **Dr. Reena Lathi**. He has been diagnosed with **dextroposed heart with Large PDA & Hernia (CDH)** and he is currently on ventilatory support. He is taking treatment at **Suyog Hospital**, Nashik.

HE REQUIRES SURGICAL INTERVENTION AND BED CHARGES WITH DIAGNOSTIC INVESTIGATION AND MEDICINES

DONATE NOW

YOUR CONTRIBUTION CAN CHANGE HIS LIFE!!

Following the doctor's suggestion, we admitted our son at Suyog Hospital. After many expensive tests, it was revealed that our son is suffering from **dextroposed heart with Large PDA & Hernia (CDH)**. He needs supporting treatment costing **Rs 4,00,000 (FOUR LAKH ONLY)**. Today he has suffered the risk of losing his life to this disease and as parents there is nothing we are able to do to help our child.

HE HAS TO UNDERGO THIS TREATMENT

We can't afford **Rs. 4,00,000/-** to save our son's life on our meager income. As a last resort, I am requesting you to rescue our **4 days old** boy from this agony. His condition is getting worse every minute, and he may not have much time left with urgent supporting treatment. We have sold the little jewellery we owned and now we are penniless. Without a treatment, my son won't make it. Only you and your generosity can save this child's life.

SPREADINGBLISS FOUNDATION is a national nonprofit organization dedicated to **Save Life of Children**. All donations to **SPREADINGBLISS FOUNDATION** are exempted from tax under section 80G of the Income Tax Act, 1961. Lastly, you can make a family smile at the end of the day.

Subject: Appeal for Financial Assistance for NICU Treatment of **BABY OF PAWAR NITIN ASHOK**

Respected Sir/Madam,

This is to inform you regarding **Baby of Pawar Nitin Ashok, male baby, Date of Birth: 23/05/2026**, delivered by Emergency LSCS and admitted in NICU immediately after birth in critical condition.

The baby was admitted with severe respiratory distress, cyanosis, and tachypnea. Due to worsening respiratory status, the baby required immediate intubation and ventilatory support.

Further evaluation and investigations were carried out. 2D Echocardiography findings are suggestive of dextroposed heart with large PDA and severe pulmonary arterial hypertension (PAH). Chest X-ray is suggestive of Congenital Diaphragmatic Hernia (CDH) for which urgent surgical intervention is required.

The baby is critically ill and requires:

- * Prolonged NICU stay
- * Ventilator support
- * Pediatric surgical management
- * Medicines and injections
- * Continuous monitoring
- * Laboratory investigations and imaging
- * Specialized neonatal intensive care treatment

The approximate total estimated expenditure for complete treatment including NICU charges, ventilator charges, surgery, medicines, and investigations is around Rs. 4,00,000/- (Rupees Four Lakhs Only).

Considering the critical condition of the baby and the financial burden on the family, we kindly request your support and approval for financial assistance / concession under applicable schemes or charitable funds.
